

RODH 414/ 419/ 422

Building:

Roderic Hill

Floor Number:

Level 4

Directions:

From the main walkway:

The entrance to ACEX is adjacent to the Union shop (selling stationery and clothing) and directly opposite a doorway into the senior common room.

Walk through the ACEX's glass doors main entrance, up the short flight of stairs and zig-zag through to the foyer of Chemical Engineering. Ahead you will see into the control room of the Chemical Engineering pilot plant.

Turn left, walking around-and-beyond the enclosed staircase, and into a long social area with seating under the windows. Head through towards the whole length of the breakout seating and go through the double doors at the end, into a corridor of offices.

Continue along the corridor through to the Department of Aeronautics.

Follow the corridor around to the right. At the end, go through the left-hand set of double doors that connect the ACEX to a stairwell of the Roderic Hill Building, marked level 2.

For rooms RODH 414, 419, 422, head up two floors until you reach the fourth floor of the stairwell, which leads to the second floor of the Roderic Hill Building.

NB: Stairwell Level 4 actually leads to RODH Building floor 2.

As you walk ahead through double doors into the corridor, the rooms are on the right-hand side, and each has two doorways.
