

## StudentShapers Recruitment: Calling all medical students in Phase 1c

***Professional Values and Behaviours Curriculum Development – preparing Phase 1a and Phase 1b students for Clinical placements***

**Bursary:** £330 per week

Start: 6th July 2022

End: 20th July 2022

This experience is for a total of 2 weeks with optional additional week by mutual agreement. This can be done flexibly if preferred over a longer period but the days must coincide with Domain lead availability.

**Who should apply:** Students in Phase 1c

**Campus/Location:** Remote working

### Project details:

Now students have completed Phase 1 of their undergraduate medical curriculum, student partners will be reviewing the teaching materials which have been used in the Professional Values and Behaviours Domain. Focusing on if sessions adequately prepared students for the clinical placements, partners will be involved co-designing both resources and the overall approach for this teaching. Your expertise and lived experience as students of the PVB course, as well as strategies for delivering such teaching would be highly valued. We would be especially interested in students who have found it particularly challenging to engage in the current PVB course, or feel that the course did not prepare them adequately for their placements.

Students will have autonomy to explore which areas of the sessions they feel more relevant for their educational needs. You will be encouraged to consider your own experience, other students, and the wider literature as well as new Medical Licencing examination requirements, before reviewing the current materials and adapting them for future students. You will also have much autonomy in designing these materials, subject to the wider constraints of the curriculum delivery and quality assurance processes.

We will meet with you regularly to ensure you feel supported and the goals are being met. We would also encourage you to consider how to evaluate this teaching and potential future research opportunities. Domain leaders would also support you using this experience to build your teaching portfolio for Associated Fellowship of the Higher Education Authority if you wish.

### How to apply:

Applications should be made via the 'expression of interest' form on the StudentShapers website ([here](#)) or accessed using the above QR code. This will then be distributed directly to the appropriate staff partner. Informal interviews will be held for shortlisted candidates

**Deadline:** 14<sup>th</sup> April 2022
