

StudentShapers Recruitment: Calling all 2nd year and 3rd year Materials students

Developing video guides/teaching materials to enrich laboratory learning experience

Bursary: £305 per week

Who should apply: Any current 2nd year or 3rd year Materials Student

Campus/Location: South Kensington

Project details:

Students will work in partnership with staff members within the Department of Materials to develop pre-learning materials (video guides) and otherwise revamp experiments, focussing on the acquisition of the practical skills needed to complete each experiment successfully. Students will be responsible for the planning, recording and formatting of videos. For further details, please talk with Dr Manjula Silva. You can find more details about studentshapers on their website.

<https://www.imperial.ac.uk/students/studentshapers/how-to-get-involved/current-projects/>

How to apply:

Interested students should send an email to k.silva@imperial.ac.uk including a brief statement (maximum 250 words) covering:

- 1) What “staff-student partnership” means to you.
- 2) Relevant experience or skills in the area of video production and/or the construction/hacking of experimental hardware.

Please include “student shapers” in the email’s subject line.

Deadline: 05/06/2019
